

KENTUCKY DIVISION OF FORESTRY

Kentucky Firewise Community Grant Program

The Kentucky Division of Forestry, in cooperation with the USDA Forest Service, is pleased to announce the 2017 Kentucky Firewise Community Grant Program. Grants may be awarded for projects to reduce the wildfire risk and/or hazard in Kentucky's wildland/urban interface communities. Grant priority will be given based on community-at-risk level, establishment of a local Firewise Council or Board, and type of project submitted. The following guidelines have been established to provide potential grant applicants with required grant program information.

The **Kentucky Statewide Assessment of Forest Resources and Strategy, June 2010**, (Forest Action Plan) listed three important issues, in which wildfires are incorporated:

- forest health
- forest management
- funding

Program Objectives:

- Provide cost-share funds for fire mitigation and Firewise activities.
- Foster closer working relationships with fire departments, communities, counties, and interested organizations.
- Educate the public about the benefits of the fire mitigation and Firewise programs.
- Reduce the risk and effects of wildfire in wildland/urban interface areas.
- Complete a Community Wildfire Protection Plan (CWPP) for each community.

Project Match Requirements:

All project applicants **must** provide a match of 20 percent of total project costs with non-federal cash or in-kind contributions. Other federal funds **cannot** be used as a match for this grant.

Cash purchase matches are direct, out-of-pocket expenditures for eligible project activities that are supported by paid invoices, cancelled checks, and signed receipts or official payroll records.

In-kind contribution matches include on-hand supplies, third party donations of supplies or equipment, professional services at the professional rate, or time spent by employees, non-federal grants or volunteers on eligible project activities. Volunteer hours may be applied to the project at the rate of \$23.56 per hour. Assistance provided by federal employees may not be claimed as match.

Grantees are required to maintain project records in accordance with all applicable federal regulations. This includes: (1) records shall comply with generally accepted accounting principles; (2) records will document allowable costs; (3) records will be supported by source

documentation, such as cancelled checks, paid invoices, payroll records, time and attendance records, signed contracts; and (4) records will be maintained for three years following payment.
